CUSTOM DESIGNED EQUIPMENT

Spray Cabinets

Features and benefits: Spray cabinets are designed for products that need an antibacterial treatment, rinsing, coloring or any other liquid treatment prior to hitting the production line. The spray cabinets are custom designed to fit your current conveyor.

Construction: Made of 300 series stainless steel, TIG welded, designed and constructed to your specific needs.

Description: Enhances food safety programs and controls.

Baskets

Features and benefits: Custom built to all your specifications. Stone enterprises designs and fabricates all our customers requests in house. Stone can fabricate a duplicate to what you currently have, modify existing pieces or work closely with our design team to create your own. Produced and constructed from 300 series stainless steel with AMI's Sanitation Equipment Design Principles and ease of cleaning in mind.

Construction: Standard features include all TIG welded framework, adjustable legs are available.

Custom Carts and Trays

ALL PRODUCTS AND SERVICES CARRY A 100% SATISFACTION GUARANTEE FOR QUALITY, DURABILITY AND RELIABILITY.
